	Examiner Quochien B. Vuong	Art Unit 2618	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This application is in condition for allowance except for the following formal matters: the specification contains an embedded hyperlink and/or other form of browser-executable code. Applicant is required to delete the embedded hyperlink and/or other form of browser-executable code. See MPEP § 608.01.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Information Disclosure Statement

2. The information disclosure statement (IDS) submitted on 01/07/2005 and 04/25/2005 are in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statements are being considered by the examiner.

Allowable Subject Matter

3. Claims 1-27 are allowed over the cited prior art.

Regarding independent claims 1, 23, and 25, La Porta et al. (US 6,763,007) disclose a communication method and system for use in a communication system including a mobile node, a second node for performing application processing on

packets originally directed to the mobile node, the method and system comprising: operating the second node to receive packets with a destination address corresponding to the mobile node. However, La Porta et al. fail to disclose the method and system above wherein the second node including a mobility agent module, and an application agent; and the method and system further comprising operating the mobility agent module to redirect at least some of the received packets with a destination address corresponding to the mobile node to the application agent instead of the mobile node; operating the application agent to process application data in the payload of multiple redirected packets, the processing resulting in at least one application event, the resulting application event being a function of the processing of the payload content of multiple redirected packets; and determining, as a function of the resulting application event and paging trigger event information whether the mobile node should be paged.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Norman et al. (US 5,737,328) disclose network communication system with information rerouting capabilities.

Valentine et al. (US 6,504,839) disclose apparatus, methods and systems for routing information from a packet-switched network to a mobile device communicating with a wireless telecommunications network.

Agrawal et al. (US 6,628,943) disclose mobility management utilizing active address propagation.

Ahmed et al. (US 6,690,659) disclose addressing techniques for use in an internet protocol-based multimedia mobile network.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Quochien B. Vuong whose telephone number is (571) 272-7902. The examiner can normally be reached on M-F 9:30-18:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nay Maung can be reached on (571) 272-7882. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
